GENERAL INSTRUCTIONS FOR FORM 500NOLD

NOTE: For a capital loss carryback, file an Amended Virginia Corporation return using Forms 500 and 500ADJ.

Net Operating Loss Deduction Computations

There is no Virginia net operating loss, as such, available for carry back or carry over. However, since the starting point (Line 1, Form 500) is federal taxable income, there is statutory provision for net operating loss deductions to the extent that such losses are included in federal taxable income.

Note: The 2011 General Assembly enacted legislation that moved Virginia's fixed date conformity with the Internal Revenue Code from January 22, 2010, to December 31, 2010. At the time these instructions went to print, required adjustments for "fixed date conformity" included: (i) the special 30% and 50% bonus depreciation allowance for certain assets under the IRC, and (ii) the 5-year net operating loss (NOL) carry back allowed for net operating losses generated in taxable year 2008 or 2009. Also, Virginia will continue to disallow the income tax deductions related to applicable high yield discount obligations under IRC § 163(e)(5)(F). In addition, fixed date conformity adjustments continue to be required for Cancellation of Debt Income under IRC § 108(i), and the domestic production deduction under IRC § 199. If federal legislation is enacted that results in changes to the Internal Revenue Code for the 2011 taxable year, taxpayers may be required to make adjustments to their Virginia returns that are not described in the instruction booklet. Supplemental instructions will be posted on our website at www. tax.virginia.gov. See pages 4 and 5 of the instructions for Form 500 for additional information.

Since federal taxable income must be modified for Virginia additions and subtractions, the additions and subtractions of the loss year follow the federal loss to the year the loss is utilized.

Thus, if the federal net operating loss is fully used in carry back or carry over to one year, the net amount of additions and subtractions will be applied to such year. If, however, the federal net operating loss is partially utilized in each of several years, the net amount of additions and subtractions will be applied in the same ratio to the applicable years.

The federal net operating loss deduction may be used only to reduce federal taxable income, and a federal net operating loss deduction cannot create or increase a federal operating loss. For a copy of the Virginia regulations, visit the Policy Library at http://www.policylibrary.tax.virginia.gov/OTP/Policy.nsf and click on Virginia Tax Administrative Code, or write the Virginia Department of Taxation, Forms Request Unit, P.O. Box 1317, Richmond, VA 23218-1317 or call (804) 440-2541.

For additional information, call (804) 367-8037 or write the Department of Taxation, P.O. Box 1115, Richmond, VA 23218-1115. You can download most Virginia income tax forms at www.tax.virginia.gov. Tenemos servicios disponible en Español.

Note: Multistate corporations — If federal taxable income is reduced to zero, allocable income is not considered.

Consolidated and combined filers must compute the amount of net operating loss deduction according to 23 Virginia Administrative Code (VAC) 10-120-320 through 10-120-327.

To avoid processing delays, mail Form 500NOLD to the address shown on the form in the upper left-hand corner. Do not mail with your corporate return. Always attach a copy of federal Form 1139 or Form 1120X. If neither of the federal forms were filed, provide a detailed explanation of the adjustment.
